REPORT OF THE SCHOOL PHYSICIAN.

of Town of Sandown, N. H.

If there is a subject more important than the school problem in looking after the welfare of the children we have got to discover it.

It is profitable therefore to look after the future fathers and mothers of our community and the time to do that is when they are children.

Very few but what need something done and something can be done in most cases, the number of scholars average about fifty and to get the best results in their school work they need careful watching. Prevention as well as curative supervision.

There has been a decided improvement during the last three years in most cases defects have been remedied.

I find the parents are ready and willing to co-operate in this work. The last examination of school children showed a clean lot.

Often times it is a burden for parents with a large family to have the children attended to at the proper time, so put it off from time to time, Tonsilis, Adenoids, Teeth and Eyes need special attention and promptly.

If a sum of money could be set aside subject to the approval of the Selectmen to use in those cases there would be more noticeable improvement.

A medical examiner may suggest and call at

tention to these things but to get results he must have backing to go ahead and do.

It has been a pleasure to work under your most efficient School Board, their activity have made the teachers more effective and great improvement in the morals of the school.

Allow me to pay tribute to them and you all.

Respectfully,

E. E. LAKE, M. D.

School Physician.
